FIRST ANNOUNCEMENT

10TH – 15TH AUGUST 2026

GOLD CREST HOTEL, ARUSHA, TANZANIA

Organised by:

Tanzania Roads Association (TARA) in collaboration with the Ministry of Works in Tanzania through the Tanzania Transportation Technology Transfer (TanT²) Centre together with other Local and International Institutions.

Supported by:

INTRODUCTION:

The Tanzania Roads Association (**TARA**), which is also a National Committee of the World Road Association (**PIARC**) in collaboration with the Ministry of Works in Tanzania through the Tanzania Transportation Technology Transfer (**TanT²**) Centre, Tanzania National Roads Agency (**TANROADS**), Tanzania Rural and Urban Roads Agency (**TARURA**), the Roads Fund Board in Tanzania and other local and international institutions, is organizing a six-day intensive **Training on Construction and Supervision of Roads Works** to be held from **10th – 15th August 2026** at **Gold Crest Hotel, Arusha, Tanzania**

This training aims to strengthen the capacity of professionals involved in road infrastructure development by equipping them with practical knowledge, modern techniques, and best practices in road construction and supervision.

TRAINING BACKGROUND:

The road sector in Tanzania and across Africa continues to face challenges related to construction quality, supervision capacity, contract compliance, and project delivery efficiency. Weak supervision practices, limited technical expertise, and inadequate quality control mechanisms often lead to cost overruns, delays, and reduced infrastructure lifespan.

This training is designed to address these challenges by focusing on effective construction techniques, supervision methodologies, quality assurance, and project performance monitoring.

KEY CHALLENGES IN ROAD CONSTRUCTION AND SUPERVISION:

Despite significant investments in the road sector, a number of persistent challenges continue to affect the quality, efficiency, and sustainability of road infrastructure projects. These challenges have necessitated the organization of this training. Key issues include:

- **Inadequate Supervision Capacity:**
Limited technical expertise and experience among supervising personnel leading to poor oversight of construction activities.
- **Poor Quality Control Practices:**
Weak implementation of testing procedures and standards resulting in substandard works and premature road failures.
- **Non-Compliance with Specifications and Standards:**
Failure to adhere to design specifications, contractual requirements, and engineering standards during execution.
- **Use of Inappropriate Construction Materials and Methods:**
Lack of proper selection, testing, and application of materials affecting durability and performance of roads.
- **Limited Adoption of Modern Technologies:**
Slow uptake of innovative construction techniques and digital tools for monitoring and supervision.
- **Ineffective Project Monitoring and Reporting Systems:**
Inadequate tracking of project progress, leading to delays, cost overruns, and poor decision-making.
- **Health, Safety, Environmental and Social Concerns:**
Insufficient enforcement of safety standards and environmental protection measures at construction sites.
- **Contract Management Challenges:**
Weak contract administration, including handling of variations, claims, and dispute resolution.
- **Coordination Gaps Among Stakeholders:**
Poor communication and collaboration between clients, consultants, and contractors.

In response to the above challenges, this training has been designed to build the capacity of professionals involved in road construction and supervision. It aims to equip participants with practical skills, up-to-date knowledge, and effective tools to enhance project delivery, ensure quality infrastructure, and promote sustainable road development.

TRAINING OBJECTIVES:

Participants will be able to:

- Strengthen skills in construction and supervision of road works
- Enhance knowledge on quality control and assurance practices
- Improve capacity in site supervision and inspection techniques
- Understand modern construction technologies and methodologies
- Develop effective project monitoring and reporting skills
- Improve health, safety, environmental, and social compliance practices

TARGETED AUDIENCE:

- Road and Transport Engineers
- Civil Engineers and Technicians
- Site Engineers and Supervisors
- Project Managers
- Contractors and Consultants
- Government Officials in Infrastructure Sector
- Quality Control and Assurance Personnel

TRAINING TOPICS:

The training will cover key areas including:

1. Fundamentals of Road Construction
2. Construction Materials and Quality Testing
3. Road Works Supervision Techniques
4. Quality Control and Quality Assurance
5. Health, Safety, Environmental and Social Safeguard Management
6. Contract Compliance and Site Management
7. Modern Technologies in Road Construction
8. Case Studies and Practical Applications

RESOURCE PERSONS:

The training will feature experienced local and international experts who will share practical insights, case studies, and best practices in road construction and supervision.

TRAINING ACCREDITATION:

The Training will be accredited by the Engineers Registration Board (**ERB**), Tanzania.

SUPPORTERS/COLLABORATORS:

The Ministry of Works, Tanzania

The Ministry of Works in Tanzania is the government body responsible for overseeing the development, maintenance, and management of the country's infrastructure, including roads, bridges, and buildings. It plays a crucial role in facilitating transportation and connectivity across Tanzania, supporting economic growth and improving the quality of life for its citizens. The Ministry is responsible for formulating policies, setting standards, and ensuring the effective implementation of infrastructure projects throughout the nation.

By strategically planning and executing infrastructure development initiatives, the Ministry of Works contributes significantly to Tanzania's overall development goals. It works in collaboration with various stakeholders, including national and international organizations, to ensure that infrastructure projects are aligned with the country's long-term vision and priorities. To learn more about the Ministry of Works and its initiatives, you can visit their official website, which can be found through a general web search for "Ministry of Works Tanzania." please visit the Ministry of Works's website: <http://www.mow.go.tz/>

TanT²Centre is a unit under the Ministry of Works. The establishment of the Centre is an initiative that aims at improving transportation in the country at all levels through technology transfer. TanT² Centre facilitates ways to enable users and providers of all modes of transport in the country to keep pace with the fast- changing transportation technology (www.tant2centre.or.tz).

VENUE AND DATES FOR THE TRAINING:

Gold Crest Hotel, Arusha, Tanzania, the Venue for the Training on Construction and Supervision of Roads Works from 10th – 15th August 2026.

LOCATION AND ACCESS:

Located in East Africa, Tanzania is the land of the highest mountain in Africa, the ***Kilimanjaro towering at 19,340 feet (5,895m)***; it is home to the worlds famous *archaeological and historical sites - Olduvai Gorge (cradle of mankind)*; with more than ***20 national parks and game reserves, abundant wildlife***, bird species, the flora and fauna makes Tanzania one of the top safari destinations in Africa. Tanzania is the origin of the world's famous migration of millions of wildebeests from Serengeti plains crossing the border to Kenya. Ngorongoro crater, the eighth wonder of the world, is another spectacular scenery Tanzania is endowed with. It is at Africa's internationally acclaimed park - Gombe National Park, along

Lake Tanganyika where you will witness the home of "The People of the Forest", the chimpanzees. In addition, Tanzania boasts of the Selous Game Reserve, which is Africa's and the world's largest protected wildlife area. The coastline stretching 1,424km provides white sandy un-spoilt beaches such as those found in the islands of Zanzibar, Mafia and Pemba. With coral reefs that make superb dive sites, visitors enjoy many aquatic sporting activities

- **Getting to Arusha:** Arusha is served by two airports, the Kilimanjaro International Airport (JRO) with Daily Direct Flights from Europe and other places worldwide., and the Arusha Airport (ARK: domestic flights only). Kilimanjaro International Airport is approximately 40 km from Arusha town.
- **Flying via Dar es Salaam International Airport (DIA):** If your first port of entry into Tanzania is through Dar es Salaam, please book a local connection to JRO. Many different airlines fly directly to DIA. Local connections are possible from Dar es Salaam to JRO and ARK. This enables passengers to have smooth connections with international flights through DIA. If you require assistance in booking local air tickets, inform the Secretary, Organising Committee.
- Arusha is the main tourist hub of Tanzania, located north of the country. It is the gateway to the Northern parks of Serengeti, Ngorongoro Crater, Tarangire, Lake Manyara and Mt. Kilimanjaro. Flights are therefore normally fully booked. So early bookings are recommended.
- **Transport in Arusha** will be arranged for delegates from/to the Kilimanjaro International Airport and Arusha Airport (domestic flights only) upon arrival and departure at a cost of **Tshs.10,000/= (about USD 5)** per delegate.
